Albert's Donates \$4000 to Lois Hole Library Legacy Program

Edmonton, AB, March/April, 2003 – During the months of March and April, Albert's Family Restaurants featured an Edmonton Public Library breakfast special of eggs and pancakes. A portion of the sales from the "Eggs and Pancakes for the Library" (EPL) breakfast special went to the Lois Hole Library Legacy Program which builds and strengthens the city's public library resources. Albert's presented a \$4000 cheque to the program on May 26th, 2003.

"We're honored to be a sponsor of this important program," said Mark Siderson, Executive Vice President of Albert's Group of Restaurants. "Albert's has a long history of investing in the community and this program was a great opportunity to do just that."

Launched on March 4th, 2003, the Lois Hole Library Legacy Program was created to support Edmonton public library collections. One hundred percent of donations from the program are used to purchase library materials for 16 Edmonton locations.

"The Edmonton Public Library should be proud to count Albert's Family Restaurants as a partner in the Lois Hole Library Legacy Program," said Program Advisory member, Ernie Ingles. "Libraries are all about serving families and family oriented businesses cater to the same community. What better partnership than two organizations which cater to the health of the body and the mind."

Albert's Family Restaurants also arranged a draw for a four-person Dinner at a Tony Roma's restaurant location. The draw was open to customers of any Edmonton Public Library and took place on May 2nd.
